

Thank you for your interest in becoming a Volunteer at The Texas Zoo.

How it Works:

Once your application is sent in and processed, you will be contacted to schedule an interview and if selected, attend a general orientation before volunteer shifts begin. For the safety of our animals and staff/volunteers, new youth volunteers are recommended to get a tetanus booster and TB test before volunteer shifts begin. Volunteer Orientation training will take place once a quarter and area specific training will be scheduled as needed. A parent/guardian must be present at orientation to sign a release form on the youth's behalf. Volunteers will be required to make a commitment to volunteer **a minimum of 8 hours a week** after trainings have been completed. Please return your application to contactus@texaszoo.org with your name and Youth Volunteer Application in the subject. Thank you and we hope to be in touch soon.

Name		Date
Address		City, State & Zip
Date of Birth	Emergency Contact/ Relation	
Home Phone Number	Cell Phone Number	Emergency Number
Health Requirements (Allergies, Accommodations, Etc.)
